

Bamboo stick

Gunshape

Choose print colours

Design guidelines

- Only dark colors can be printed.
- Colours are printed in PMS Uncoated these may differ from screen colours.
- Do not use images.
- Provide texts in outline or send the font along.
- Work in between the grey line!
- Not to much details in the design.

We emphasize that a general tolerance applies for misplacement up to +/- 5 mm in any direction. Also – when printing multiple colors – a tolerance of +/- 2 mm per color must be taken into consideration. Colors on monitors and color printers can differ from final print and color differences and/or spots cannot be prevented. Small parts, grids and text can be closed or broken. Please check this proof carefully for spelling errors, color deviations, etc. After your approval we cannot be held accountable for spelling errors.

We can use samples, pictures and drawings of this project for marketing purposes. This print-proof is subject to the general terms and conditions of The Branding Club.
