▨ Full-colour

Design guidelines
- Only dark colors can be printed on kraft.
- If you choose kraft design only can be printed between the grey lines.
- Make sure there are not to many details.
- Pay attention to the number of colours you choose. Let your design depend on this.
- Colours are printed in PMS Coated these may differ from screen colours.
- Do not use images when you print PMS.
- Provide texts in outline or send the font along.
- Use only high-quality images of at least 300 dpi or more. You can also overlay them in a vector file, if this is unclear please contact Design team. (If full color).
